When submitting infusion treatment prescriptions, please remember to indicate the following: 1) patient's weight/height for dosing; 2) where patient will receive infusion treatment (home, infusion site within clinic, or separate infusion center); 3) if nurse training is necessary; and 4) whether the Infusion Treatment Standard Protocol* is required.

*Infusion Treatment Standard Protocol will include the following: 1) dispensing ordered med/dose; 2) diluent to mix and/or dilute dose; 3) flushes to flush line and anakit med [epinephrine 0.3 mg IM / 0.15 mg IM (for pediatric patients) and diphenhydramine 50 mg/mL]; and 4) premeds to take 30 mins before orally (Apap 325 mg, may repeat x1, and diphenhydramine 25 mg, may repeat x1).

Step Three: Let Us Help You With The Rest

Copay and Financial Assistance

- > Please complete and send all insurance paperwork to us via fax to 877.541.1503. Do not submit any information to the patient's insurance directly — we will submit on the patient's behalf. If copay assistance is needed, we will find copay cards, foundations, and pharmaceutical programs to help obtain the lowest copay possible. There are times when it is necessary to get the patient's approval to do this on their behalf. In some instances, patients are required to submit requests themselves due to necessary income eligibility requirements and other sensitive personal information.

Prior Authorization

- > We can assist with prior authorization for most insurance plans. Once obtained, we will complete and send to you for a prescriber signature. If an order must be filled by a different contracted pharmacy, we will triage the prescription and keep you informed via fax or email. **If you receive a denial letter from the patient's insurance, please fax it to AcariaHealth at 877.541.1503.** We will review and draft an appeal letter for the provider.*

Medication Delivery

- > Upon approval of prior authorization, we will notify you via fax or phone call. We will contact the patient to schedule delivery at no charge and will deliver to their home or your office, as requested by you. Patients will receive a welcome kit on their first delivery that guides them through the process of getting started with our pharmacy. Refills can be processed through the online patient portal or text service program.

*AcariaHealth cannot write an appeal letter for Centene owned companies.
